## gecko property solutions

We have used Garry Scott and his team over the past 12 months as a direct service provider at Gecko property solution.

Garry and the team help gecko provide professional groundworks to a number of our clients throughout Kirklees council.

Their works range from demolition, trench dig and re-fill, hard landscaping, flagging and masonry works.

We have received positive feedback on contracts that Garry Scott Groundworks, Landscaping & Maintenance has carried out and will continue to use them in the future as well as recommend them to others.

Gecko Property Solutions Ltd

## Kirklees Stadium Development Ltd

The John Smith's Stadium in Huddersfield is owned and operated by Kirklees Stadium Development Limited who manage all matchday operations and site maintenance of the 51 acre site. We pride ourselves on the quality of the facilities we provide and maintain all areas to a high standard.

In previous years, we have had difficulty in finding contractors who are available at short notice and who can carry out high standards of work with minimal disruption to the day operation of the Stadium site.

Garry Scott Groundworks, Landscaping & Maintenance tick all the boxes and I have no hesitation in recommending them to other businesses.

Operations Manager,  
Kirklees Stadium Development Ltd

## Horizon Driveways

We at Horizon Driveways specialise in pattern imprinted concrete and resin bond for outdoor areas along side our cleaning, re-sealing and repair service for concreted areas.

Preparation is key to laying concrete and this is where Garry Scott Groundworks, Landscaping & Maintenance comes in.

A professional and reliable company, the groundworks service they have provided has been outstanding. From start to finish the whole team were pleasant and hard working.

It is always a pleasure to do business with Garry and we will always recommend them and continue to use them on our future projects.
